Our Mission: Empower a diverse body of students with an internationally competitive education by fostering students’ natural inclination toward curiosity, discovery, and adventure.
Who We Are

We are a school of inquiry!

Achiving Academic Excellence

Solving Real World Problems

Keeping Students Front & Center

Where We’ve Been
The problem took place in a school in a community in Ms.Kara's classroom. This problem is plants dying. These plants need a better environment. We are doing this final project because of the boy that harnessed the wind by William Kabwama. The book is about William building a windmill.

The solution to this problem is building a loft. My first thought was to make a pulley system so all of the plants get enough energy. But we went to a room with a loft in it. Ms.Kara said to us that we should do a loft and everyone agreed to go with it.

The steps to this solution are: Number one massive room. Number two discusses the rain barrel. Number three supplies. Number four get the supplies inside. Number five build. Number six more building. Number seven problem solving.

Plants help us and feed us. Plants grow watermelon and cocoa for chocolate. They also help bees and the bees can pollinate the plants. Some you can even eat. Some are beautiful and some hurt you but we need plants to survive. The problem was plants dying and this was the solution to save plants.
Three Dimensions of Student Achievement

Mastery of Knowledge & Skills
Character & Engagement
High Quality Work

Skills and Habits that Lead to Success!

I live for the shirting ceremony!

We don’t want to be known as a school for troubled kids - we want to be known as a school of inquiry - the fieldwork, the projects!

We want Inspire to add a high school!

We love that our kids get to be with the same group of friends for longer - all the way through 8th grade!

Centering Parent Voice and Choice

We love the small size and facility!
Where We’re Going
100%

- Increase enrollment targets and sustain waiting list of interested families with focus on filling middle school grades while maintaining early childhood enrollment
- Explore talk of high school programming once these enrollment goals become a reality
Revive and Bolster

Pandemic Recovery - Come Back Stronger!

Parent Participation and Voice

Student Voice, Leadership, and Advocacy

Grow our athletic opportunities

Clubs, service opportunities, competitions, and student-led community engagements

Local, regional, and (inter)national connections and experiences for students
Becoming a Destination School

Double Down on:
- Inquiry Focus
- Developing Habits of Character
- Fostering Self-Advocacy
- Authentic Application of High Quality Work

Setup Students for Success:
- Science of Reading
- EL Education Curriculum - Increase Fidelity & Consistency
- Recruit, Retain, & Invest in Gifted Educators
- Recruit, Retain, & Invest in Families Eager to Join Momentum
While we intend to rank in the top quartile of Muncie-area schools, we also intend to remain true to our whole-child skill development and meaningful product work.
Money Impacts Everything

So let’s talk about it!
5 Year Budget Worksheet
Onward and upward! Thanks for being part of the crew!
